

Summary of Sermon

Continuing our Money Matters series, Pastor Steve spoke to us about Living With A Plan, including:

1. To begin planning with an end-view of being in eternity with God, and to consider what the results of your life now will be in 300, 3000 or even 3 million years' time.
2. To put your effort into action: earn, save and give, considering just how much you need to keep for yourself.
3. To avoid debt, so as to be free to serve God.

Key scripture Hebrews 11.13-16: we really must have an eternal perspective.

Questions

1. Regarding debt, can you remember Pastor Steve's advice on borrowing, saving, selling, working and praying?
2. Without a plan we tend to drift into conforming to the world's values, perspective and general pattern of thinking.
What difference do you think we make as Christians in the world, to the world?
3. God sees the end from the beginning and loves us too much to abandon us to our own way of thinking. Does salvation include finances?
