

Summary of Sermon

Ps Steve spoke on Sowing, reaping and generosity, particularly from Gal 6:6-10 and 2 Cor 9:6-11. “God gives us seed, not keys to a warehouse” - there is a natural principle of sowing and reaping leading to harvest. Some of the harvest is seed for sowing for the future and some is seed for bread to enjoy.

Questions

1. Why does God give us “seed” not “keys to a warehouse”? Why is there always a part for us to play?
2. Can you think of examples in your own life and in the lives of others around you of reaping what we sow in relationships and character as well as in generosity?
3. How many different ways can we think of to “sow” among people around us who do not yet know Jesus, so as to produce a harvest?
